Cityscape Roofing, Inc. is dedicated to excellence in all aspects of our projects. We are striving to set new industry standards of quality, while maintaining our excellent safety record.

Our assets include our highly experienced staff, excellent location, and impressive equipment. We stand ready to complete your roofing project today!

We pride ourselves on our innovative safety program and we train our employees extensively.

We are able to meet all your roofing needs from re-roofs and additions to new construction. Our service department can evaluate and maintain your existing roof.

Safety -- Our Main Priority

With a .71% EMR Rating, we train our employees extensively and conduct daily site inspections to insure your project is being implemented properly and safely.

In addition to our own job site inspections, we utilize an outside consultant to make certain our operations are safe and that we are in compliance with all OSHA safety requirements.

We invest heavily in the appropriate training of our employees for the proper removal, handling, and disposal of asbestos containing roofing materials (ACRM) in accordance with federal and state regulations. This training protects the company as well as our clients.

The bottom line: By being so safety-minded, we're able to better protect our employees, as well as deliver a superior quality product that you can depend on.
